Microblading & Defined Brows

At A Glance

Microblading

Duration

✓ 3 Days

Who is this course for?

This qualification is for anyone seeking employment or further training as a Microblading artist. Over the duration of the course you'll be taught to correctly draw eyebrow strokes using a microblading machine so that you will be able to confidently provide this treatment to clients. You will also build up from the basics, such as health and safety, preparation and end with client home/after care.

Overview

- Once you register and pay your deposit you will be sent a booking confirmation.
- You will also be sent details of your course timetable and your allocated tutor for the duration of your course.
- All practical teaching and assessment will be done at our center.
- Any theory assessment can be done at home but must be submitted to your tutor on time.
- Once all assessments have been completed (Practical in house assessments and Theory assessments) they will be signed off by your assessor and you will then be awarded an internationally recognised certificate of completion!

Did you know?

This course includes a *FREE* Microblading kit to get you started on clients straight away! We also use BIOTEK products during the course so you can get a feel of more than one machine brand. BIOTEK is an international brand known for excellent Semi Permanent Make-Up products, based in Italy. We are also one of a few distributors in the Middle East.

Payment

All students are required to pay a deposit of 25% from total course value, to ensure that their place is booked on their desired date. On the first day of the course, students are required to pay the rest of the course fee prior to the start of the course.
